AMENDMENT AND REQUEST FOR CONTINUED EXAMINATION

Sir:

In response to the Final Office Action of April 12, 2006, please amend the above-identified application as indicated herein. Please reconsider the application in light of the amendments and remarks below.

On May 23, 2006, Applicant had discussed the present case on the phone with Examiner Wang. The discussion concerned claim 1 and the Henderson (US 6,001,555) prior art reference. It was suggested by the Examiner that clarifying the TFD's according to the structures of the application at page 13 could resolve certain section 112 rejections. Applicants suggested that provisoing out administration to HIV patients would provide additional limitations outside of the Henderson teachings. The Examiner did not disagree, but indicated an additional search would be in order and such amendments could not be entered after final.
